Kanojiya Shilpa

Software Engineer - II

shilpakanojiya2021@gmail.com

8976166828

Ghatkopar East, Mumbai, India

github.com/skanojiya2021

4+ years of expertise creating cutting-edge technical solutions and websites. especially skilled in JavaScript, HTML, CSS, Tailwind Node.js, vue.js, and React.js. Also having hands-on expertise with tools like MySQL, Tableau, Snowflake & Splunk. Looking for a job where learning by doing is encouraged and teamwork is emphasized.

WORK EXPERIENCE

Software Engineer - II
Finicity, A Mastercard Company

07/2021 - Present

Achievements/Tasks

- Successfully resolved UI bugs in the Connect application using React.js, improving the overall user experience
- Developed additional features for Connect, enhancing the functionality and usability of the application
- Utilized JavaScript, Node.js, and Puppeteer to create automation scripts for extracting financial data requested by customers through API's
- Collaborated with the Q&C team to identify and resolve bugs and issues, ensuring a smooth and error-free user experience
- Increased productivity by effectively utilizing applications such as Splunk, Tableau, Snowflake, Postman, and Connect

WEB DEVELOPER
Madrecha Solutions

08/2020 - 07/2021

Achievements/Tasks

- Developed Front End applications using Vue.JS, ensuring clean and modular code structure for improved maintainability and efficiency.
- Collaborated closely with team members in software planning and design, contributing to the overall success of projects.
- Constructed API's using Express.js and leveraged Knex.js as a query builder for efficient data retrieval and manipulation.
- Successfully ideated and implemented innovative solutions to address various business problems.
- Engaged in regular interaction with users to gather feedback and make improvements to the applications.

JAVA DEVELOPER
RSalesArm IT

12/2019 - 08/2020

Achievements/Tasks

- Joined as a Jr. Java Developer. Worked with a team of developers and designers to build a user interface of a Billing website using HTML and CSS and JQuery.

SKILLS

Nodejs   Reactjs   Vuejs   JavaScript   HTML
CSS   MySql   Knex.js   REST   REST APIs / JSON
SQL (Structured Query Language)   Redux   Tailwind

PERSONAL PROJECTS

SafeDialer Application
Developed the truecaller.blog application using JavaScript, HTML, Tailwind, React.js, and Rest APIs. In order to enhance the user interface, we have employed pagination logic to retrieve data from the URL. URL:trucallerdata.netlify.app

Food Application
A straightforward food application created with React, JavaScript, and Tailwind that allows you to choose from a list of foods and view a recipe with quantities and ingredients URL: https://biteclub.netlify.app

Nex_Gen_AI Application
*A React.js-built Gemini app clone driven by Google AI Gemini. With real-time data processing and an adaptable user interface, this project mimics Gemini's AI-driven insights and personalized suggestions. URL:*https://robosailor.netlify.app

Todo-App
In React.js, I made a to-do list. With the use of this to-do list, an individual can record their daily duties and delete the listings after they are finished. URL: plantodos.netlify.app

CERTIFICATES

React.js Essential Training
https://lnkd.in/gPpGCYJ9

JavaScript crash course

Certified Scrum Master® (04/2024 - 04/2024)
Have effectively finished Amit Kulkarni's Certified Scrum Master Classroom course

EDUCATION

BE(I.T.) [MU] (08/2015 - 06/2019)
